

# 600 Quality Guest Post Opportunities

[www.serpchampion.com](http://www.serpchampion.com)

## How It Works

We have compiled a list of quality websites that may accept guest post opportunities, depending on your content topic. We can't guarantee that all the websites will take your article. However, if your content is high-quality, then there is a good chance, you will get your article placed on the site.

You can also get them to write an article for you instead of accepting articles from third parties.

### How To Use This List

Step 1: Filter this list down, and find the sites that operate in your niche or market.

Step 2: Find their contact information through a service like Hunter.io or Snov.io. You can also try to go on their contact page and submit a request.

Step 3: Pitch your content or ask them to write an article for you.

**Optional Step:** We all know that guest posting is a tedious, time-consuming task for every person. If you'd like to skip this painful process, then you can hire us to do the guest posting for you.

We have a dedicated team that finds quality sites in your niche and writes great content for these blogs all-day everyday. The truth is, we can scale because we run a big operation that requires a lot of money and resources.

Now you can take advantage of that!

We will also help you create a link building strategy that will help you rank faster than figuring it out by yourself.

[Click here to get started with our guest posting services.](#)

## Here Are Your 600 Guest Post Opportunities

## Before and After Results with our Guest Post Service

We will compare four clients' results that have used our [guest posts recently](#), and we'll use them before and after numbers to view their traffic growth.

**Here are the numbers we've been tracking:**

- Organic traffic
- Referring domains
- Guest posts purchased through our service
- Traffic Growth Difference

### Client #1 - Industrial Manufacturer

#### Before

Start Date: 2020-02-18

Traffic: 464 organic visitors per month

Referring Domains: 214 Referring Domains

#### After

Date: 2020-10-20

Traffic: 4,649 organic visitors per month

Referring Domains: 334 Referring Domains

52 Guest Posts Purchased through our service

Traffic Growth: **+4,185 new organic visitors**

Takeaway: With only 52 guest posts, this site has experienced 4,185 unique visitors. This growth means a lot for this client because they generate a high number of sales.

### Client #2: Food / Nutrition

#### Before

Start Date: 2020-08-14

Traffic: 754 organic visitors per month

Referring Domains: 35 Referring Domains

#### After

Date: 2020-10-20

Traffic: 1,085 organic visitors per month

Referring Domains: 82 Referring Domains

16 Guest Posts Purchased through our service

Traffic Growth: **+331 new organic visitors**

Takeaway: This is a new project, but we already see traffic growth with only 16 recent guest posts. We are expecting this site to grow 20-30% more every month.

### **Client #3: Tax & Finance**

#### **Before**

Start Date: 2020-01-27

Traffic: 2,600 organic visitors per month

Referring Domains: 325 Referring Domains

#### **After**

Date: 2020-10-20

Traffic: 17,812 organic visitors per month

Referring Domains: 1,895 Referring Domains

59 Guest Posts Purchased through our service

Traffic Growth: **+15,212 new organic visitors**

Takeaway: This client experienced steady traffic growth for the past ten months. They kept their SEO going, and eventually, it paid off big time. This project required patience and monthly link building for this to happen.

### **Client #4: Automotive**

#### **Before**

Start Date: 2020-01-03

Traffic: 183 organic visitors per month

Referring Domains: 83 Referring Domains

#### **After**

Date: 2020-10-20

Traffic: 1,449 organic visitors per month

Referring Domains: 202 Referring Domains

61 Guest Posts Purchased through our service

Traffic Growth: **+1,266 new organic visitors**

Takeaway: It took ten months and 61 guest posts to achieve a growth of 1,266 unique visitors. This company generates a lot of sales per client, so, fortunately, they will earn a return on their investments. However, it took a long time for them to compete.

#### **Our takeaways:**

1. More links equal more traffic in the long run.
2. Have patience with your site. Some sites experience rapid traffic growth, while others take a lot longer to respond.
3. Every site, niche, and keyword has its own ranking time. It comes down to competition and how Google's algorithm judges that particular niche.
4. Technical SEO and on-page optimization are critical to this. The better your site is optimized, the faster you will see results.

**Guest posts are only one part of your SEO campaigns.**

Make sure to include that part in combination with on-page SEO, content creation, and other link building strategies like citations, press releases, and social links.

It is all about diversity.

**We want to help YOU achieve the same traffic growth.**

We can offer you the help and scalability to get it done.

[Right now, you can use our guest posts and on-page SEO service to get started.](#)

We highly recommend combining these two services to achieve results for your project.

To your success,

Patrick Babakhanian - SERP Pro

P.S: If you need to speak with us first, and you need a real SEO strategy, then [fill out our application form here](#). Your application will give us a better understanding of your needs.
